What is exactly the social grocery store?:

Depending on availability, we offer products of basic needs such as: pasta, legumes, canned food, detergents products etc. baby milk and diapers if there are any infants at all.

How the social grocery store is supplied with basic needs product:

The social grocery store is supported and operated by volunteers. Products are mostly offered by production/import companies, but also from sensitized citizens' and fundraising from schools, universities and companies. Preparation of the basic products packages is done by volunteers.

How often beneficiaries can claim there packages:

Frequency of package distribution is not stable because the available products may not be enough to cover all the basic needs. Expectancy of the committee is to offer products and packages as frequent as possible. Furthermore if the available products are not enough, priority will be given to individuals without any income or he/she is in a state of emergency.

For how long someone can be beneficiary:

When applications are approved, a date is set for the final approval. Depending the case a review date is set for beneficiaries that are waiting for an answer from Public services for benefits approval/pensions, review for approval will occur every 6 months

Beneficiary's obligations:

- A) is to inform the social grocery officer for any changes about their financial state, change about their telephone number and the current composition of their family
- B) is to inform the social grocery officer about any response from public services regarding benefits/pensions applications and also if any family member that lives with you finds any job
- C) is to check the expiration dates on the given products. Some products may expire after a month from the day that they were given, if the given products are not consumed in time they will expire
